

Qualified Boilermaker/Welder

Port Adelaide, Adelaide SA

Welders & Boilermakers (Trades & Services)

Multiple Full-Time positions available.

\$ 90,000 - \$110,000 per year

Since 1995 MG Engineering retained its core values through a supportive, family-like culture. The company continually invests in its staff through both internal and external training individuals to reach their maximum potential and progress their careers.

About the Role:

- Potential salary remuneration \$ 90,000 - \$110,000
- Full-time permanent after a probationary period
- Regular overtime
- Work on significant and diverse high-profile projects, including ship building and complex fabrication
- Based in Port Adelaide, occasional site work required

Skills & Experience:

- Qualified Boilermaker/Welder tradesperson with experience
- Ability to interpret engineers' drawings and specifications
- Experience using Dumpy Levels and Accuracy Control
- Keen interest in working on a broad range of projects
- Capable of welding all positions and various processes
- Strong commitment to the adherence of all safety and quality standards and procedure
- Drivers licence with reliable car (must have)

We are seeking a highly motivated and self-driven individual that's keen to settle in a rewarding environment. If this sounds like you, we invite you to apply now! Please email your CV to reception@mgengineering.com.au.
